

Dr Cornel Barnard - District 7 RA Delegate

My professional experience includes working in multiple rural settings in the area, family practice in urban settings, and doing surgical assisting in multiple surgical disciplines. These diverse settings have given me more insight and a greater understanding of the Health System as well as the smaller systems within it. My experiences have led me to explore the reasons why some parts of our system is faltering.

I am pleased to say that I have reached some success in my own community by joining forces with managers in the Health Authority to improve outcomes for our patients.

My mission statement is to build a quality practice by delivering evidence-based care in a dependable environment.

I want to extend these values into a position that will benefit my colleagues all over the province. I believe that the specific career path I chose has honed me for this position, and it would be an honor to serve on this committee.
