

BC FAMILY DOCTORS

Your Specialists in Primary Care.

WE CAN CREATE A NEW TOMORROW WHERE EVERYONE CAN THRIVE.

The COVID-19 pandemic has shone a spotlight on the cracks of our fragile healthcare system. It's time to lay the groundwork for a new era, knowing the future will result from the choices we make now. We can choose courage over comfort, the collective over the individual, inclusion over hierarchy. Or we can choose the status quo.

BC Family Doctors is advocating for different choices to create a new reality for physicians and patients.

- Increase supports to address the rising costs of doing business
- Modernize and create equity in physician compensation
- Address systemic factors impacting physician workload and health
- Increase family physician engagement and representation
