

Dr Eric Cadesky

Re-Elect to the Governance Committee

Dear Colleagues,

I am writing to ask for your support to **finish my term on the Governance Committee**.

Over the past three years we have worked together to evolve the RA and build a safe and inclusive culture. At the same time, I have also served on the Governance Committee, representing our shared values of equity, diversity, and inclusion. For example, during my time on this committee and the board **I have led initiatives such as creating the Diversity and Inclusion Advisory Working Group, increasing committee positions for general members, and ensuring that those who govern our Association do not have conflicting duties with other organizations.**

We are only six years into a completely reformed Doctors of BC Governance structure. I was on the “big board” and supported this model that aims to increase engagement and provide a greater voice to you and all members. I sat on the first years of the new board as your President-Elect and then as your President. Having served on the old board, the new board, and the RA, **I bring experience** to one of our most significant committees. This is especially important right now as the current general committee members are in their first years on this committee. I can **provide context and history** to our discussions along with the President and Past-President who also serve on the Governance Committee.

Despite a pandemic and many challenges to our profession, we have come a long way in a short time. There is still much more to do, and I **thank you for your support** to continue creating the foundation for a Doctors of BC that empowers us all.

Sincerely,
Eric

A handwritten signature in blue ink that reads "Eric Cadesky". The signature is written in a cursive, flowing style.

Resumé
