

Dr. Samantha Segal (she/her)

Rossland BC

Hello and good day! I am a member at large on the Nominating Committee, and I am asking for your support for a second 3 year term. My name is Samantha Segal and I am a General Internal Medicine specialist in the Kootenays living in Rossland, BC, on the unceded lands of the Sinixit, Knutaxa and Sylix. I completed my Internal medicine training at the University of Connecticut and Internship at Yale, and have a subspecialty interest in rheumatology. I am committed to rural care and have been providing care at our regional center in Trail BC since 2004.

#### Diversity in Leadership

Since being part of the Representative Assembly for District 08, I have developed relationships with colleagues from across the province. From city ER physicians, to family physician specialists, and others like me in other similarly rural communities, we all share a desire for transparent and effective leadership that prioritizes equity, humility, representation and inclusion. I am committed to these principles.

#### The Nominating Committee and its work

For the past three years I have been a member of the Nominating Committee and I have a broad exposure to the governance process. I am ready to work out of the gate. The beauty of the Nominating Committee is that at this table we see our very best colleagues step up to lead, and it is truly inspiring. We are entrusted to balance out committees with specific skill-sets, while moving forward to ensure representation reflects the diversity of our membership. The 2022 Member Demographic Report compared the demographic makeup of our membership population to our governance bodies, and shows that our governance bodies are now largely representative of our membership.

Being a part of the Nominating Committee brings me professional satisfaction, because of the collaborative nature of work and because of its impact. I would be grateful for your support to continue my work on the Nominating Committee and thank you for your consideration.
