

BC FAMILY DOCTORS

Your Specialists in Primary Care.

WE CAN CREATE A NEW TOMORROW WHERE EVERYONE CAN THRIVE.

We are making sure family doctors' voices are heard and patients' needs are met.

Over the last several months, BC Family Doctors has been at the table – advocating for physician member needs for compensation. You told us you needed a payment model that recognized the value of what you do, addressed rising business costs, and provided pay equity and choice about how to practice.

You spoke. We listened. We delivered.

But we aren't finished. We are just getting started.

WHAT WE DO

Motivated by a future where all family doctors thrive, we pledge to:

- Lead and support you in the implementation of a new payment model that focuses on fair compensation for those of you whose choose this payment method.
- Advocate for the needs of all family doctors, regardless of how you choose to be compensated.
- Be a strong voice for you in negotiations.
- Raise awareness of the challenges you are facing so that the government and the public are aware of the sacrifices and costs incurred by family doctors.
- Maintain an active listening network where you feel seen, heard, and confident that BC Family Doctors is your advocate for a strong future for family medicine.
- Address systemic factors impacting physician workload and health.
- Increase family doctor engagement and representation.
