

BUSINESS ADVISORS

HELPING YOU RUN YOUR BUSINESS, EVERY STEP OF THE WAY.

Doctors of BC's Business Pathways program now features a dedicated team of regional Business Advisors. These advisors specialize in addressing a range of business concerns and are able to guide doctors toward the right resources.

Whether it's launching a business, setting up a clinic, navigating the complexities of managing an office, optimizing business operations, or closing a practice, Business Advisors give one-on-one, personalized support to BC doctors.

Business Advisors are here to:

1. **Listen** to understand your business needs.
2. **Communicate** your options and **contextualize** them to your unique situation.
3. **Be there** for you as you run your business, every step of the way.
