Dear Dean Kelleher,

**Re: Response to Dean's Letter dated January 18, 2018**

We thank you for your response to our separate recommendation regarding general compensation. We value your statement of appreciation of Clinical Faculty's efforts and contributions in training the next generation of our doctors.

We are, however, disappointed in the continuing lack of progress on teaching rates despite the risk of reduced teaching time and commitment by Clinical Faculty identified in the 2017 survey. Compensation is an area that needs to be addressed. We feel we must reiterate our recommendation for regular annual increases to teaching rates for reasons set out in our June 13, 2017 letter.

We very much value the collaborative relationship between Doctors of BC and the Faculty of Medicine, and we hope our continued collaboration will result in meaningful progress on this matter of mutual interest. We appreciate your willingness and commitment to raise the issue of compensation and related issues with the relevant Ministries.

We look forward to continue working with the Faculty of Medicine.

Sincerely,
