

EMR SUPPORT MODEL

Getting Started

Your EMR is a key tool for your clinical practice. Here is how to find the right fit for you.

- [DTO EMR Frequently Asked Questions](#)
- [CMPA Electronic Records Handbook](#)
- [OMD Physician EMR Planning Guide](#)

Migration

Switching or merging EMRs is a complex project. A migration plan is essential for a smooth transition.

- [DTO EMR Data Portability](#)
- [DTO EMR Data Conversion Checklist](#)

- Contact DTO for additional help

Fundamentals

Basic training is provided by your EMR vendor. The Practice Support Program (PSP) provides a tailored approach to understanding how your EMR can improve your office efficiency and clinical practice.

- [PSP Panel Management \(Phase 1-2\)](#)
- [PSP Advanced Access and Office Efficiency](#)

Troubleshooting

Your EMR vendor is your first point of contact to help resolve software issues.

- Contact DTO for additional help

Optimization

Are you using your EMR as a tool to deliver proactive care? Do you know your patient panel? The Practice Support Program (PSP) can help you get the maximum benefit from your EMR.
