

How group benefits and provincial drug programs *work together*

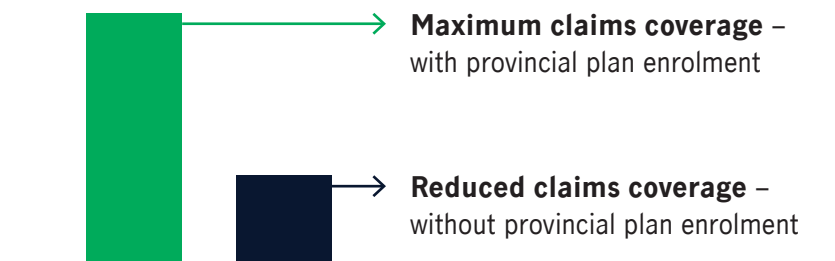

Provincial drug programs cover the cost of some prescription drugs. Your group benefits plan provides some additional coverage beyond your provincial program. These programs work together to help manage your health and save you money on prescriptions.

Increase drug coverage in two steps

Step 1 - Enrol in your provincial drug program

Enroll even if prescription drugs are covered under your group benefits plan so you receive the maximum coverage from both programs. We will not pay claims (after the Manulife limit is reached) for drugs that are covered under your provincial plan until we receive your drug program confirmation.

- BC residents [enrol in Fair PharmaCare](#)
- Manitoba residents [enrol in Manitoba Pharmacare](#)
- Saskatchewan residents [enrol in the Special Support Program](#)
- Saskatchewan residents over age 65 [enrol in the Seniors' Drug Plan](#)

For illustrative purposes only. Individual coverage amounts may vary.

✓ **Enrol in your provincial drug program to maximize your coverage!**

Step 2 - Share your drug program confirmation with us

This step lets us know how to apply coverage on prescriptions, so you can save money at the pharmacy.

Sign in to the plan member site and use the send documents feature to:

- Share a photo or proof of provincial plan coverage with us
- Tell us if your provincial enrollment is for a year or for a lifetime. If you choose coverage for a year (option for MB and SK), you will need to complete this step every year.
- Also include your *plan contract number* and *certificate number* found on your group benefits card or claims statement

OR the next time you submit a claim, include the information above to share your provincial plan confirmation with us.

Contact us

If you have any questions or require more information about how your provincial drug program works with your group benefits plan, contact our Customer Service Centre at **1-800-268-6195**.
