

HOW TO ACCESS THE PROVINCIAL ATTACHMENT SYSTEM(PAS)

1

BC SERVICES CARD APP

Download the BC Services Card App on your mobile device and verify your identity if you haven't already. This is used to access multiple services with the government of BC.

<https://id.gov.bc.ca/account/setup-instruction.html>

2

ONEHEALTHID

Create your OneHealthID on your desktop following the system prompts. This is a one time setup, reusable across multiple systems and reduces the amount of accounts needed to access services.

3

MULTIFACTOR AUTHENTICATION

Complete the Multifactor Authentication process with your desktop and mobile device. This adds an additional layer of security when logging in.

4

LOGIN TO THE PAS

Use your OneHealthID credentials to login to the PAS. Congratulations, all set up activities have been completed!
